

Exam Instructions

- Use only # 2 pencils on answer sheet.
- Mark answers on both question sheet and answer sheet.
- Mark **only one** answer for each question.
- There may be more than one correct answer.
- Some answers are incomplete and worth partial credit.
- You may ask for some standard integrals.
- There will be about 12 (or 13) questions for each of the first two exams and about 20 questions for the final exam.
- There can be up to 10 choices for answers to a single question.
- All necessary formulae will be provided using usual notation. No explanations of formulae will be given.
- By design, the exam can be finished in about half the allotted time.
